Hi Angelia –

As we discussed, I've been directly coordinating with a number of folks at UDEQ, and I will continue to do that. I passed your request for info on the water quality meeting tomorrow on to Erica Gaddis and Walt Baker. I will also include Tammy and Kelly on the email updates that I send out.

I also wanted to reiterate my suggestion that UT consider having someone from your Dept engage directly with either of the incident commands EPA has set up in Durango (led by EPA Region 8) or Farmington (includes Regions 6 and 9). I think that will greatly help with the flow of information.

Thanks,

Sarah

Subject: Utah Agencies

Good Morning,

I have been tasked by Utah DEM to reach out to EPA R8 because there is concern EPA has not

been communicating with Utah DEQ & DNR.

Can you let me know who I can contact regarding this and what do you feel would be the best solution?

Thanks,

Angelia Crowther, *Community Support Liaison*
